

Last September **VTEQ** participated in the **Mekánica Automotriz Canatame 2010 Expo** in Caracas, institutional event organized by the National Workshops Camera (

CANATAME

) in favour of the development and strengthening of the sector. This event, celebrated CIEC, in the facilities of the Metropolitan University, as central subject the introduction to the System of Technical, Mechanical and Physical Vehicle Revision in Venezuela, system impulsed by the National Institute of Land Transport of Venezuela (

INTTT

) and

VBR 2010, C.A

, representative of VTEQ in Venezuela. During the event there were different recognitions, among them the ones offered by

CERTIPLUS

and VTEQ to

INTTT

and

CANATAME

, for their excellent work in the development of the national vehicle technical revision system and for the development of the automotive sector respectively. It was in the stand of

VBR 2010, C.A

where the assistants had the occasion of knowing the integral solution of systems and technological products that VTEQ has kept adapting to the Venezuela's system together with the local operator

CERTIPLUS

. The opening of the first

CERTIPLUS

revision center is planned for March of the next year.
